

PLAYGROUND SAFETY

DATE: July 21,
2021

TIME:
1:00PM-4:00PM

LOCATION:
VIRTUAL-ONLINE
VIA ZOOM

Young children spend many of their waking hours in child care centers. Outdoor play for children encourages movement and physical activity stimulates children's learning. Children learn by exploration, so outdoor spaces must be designed in such a way that children can test their abilities in a challenging yet safe environment. Attend this learning event for the 4 hour Playground Safety approved by the NC DCDEE and discuss rules, regulations, and create an outdoor play and playground safety in accordance with 10A NCAC 09 .0605 and .1102(e).
